FIRE PROTECTION SYSTEM EMERGENCY REPAIR NOTIFICATION

The purpose of this document is to provide notification to the Fire Department that an emergency repair is being conducted on a Fire Protection system. Emergency repair shall be defined as work needed to correct unplanned impairments and to restore the fire protection system to proper working order. The Contractor shall submit this form to the Spokane Fire Department by email, fax or hand delivery to avoid potential permit penalties. Where the scope of work requires a permit with the Spokane Fire Department (see below), it shall be applied for no later than the next full working day following submission of this notification.

44 W. Riverside Avenue Spokane, WA 99201-0189 509.625.7000 509.625.7006 Fax sfdservicereports@spokanefire.org www.spokanefire.org
